# HALTER GUIDELINES

1. Muzzle diameter—Measure ABOVE the muzzle, around the face where the halter would sit (about halfway between eyes and nose) then add 2".
2. Measure from the front of the cheekbone to the back of the jaw (add or subtract 1/2" will fit).
3. Measure from the throatlatch to the bottom of the muzzle where the lips meet. Divide number by 2. (1/2" range will fit).
4. Measure where the halter would sit just below the cheekbone, up and over the poll (behind ears) and down to just below the cheekbone, then add 6".
