

Aussie Stock Saddle

The Clinton Anderson Aussie Saddle is one of the most universal saddles on the market today. Clinton has designed the saddle to fit most breeds of horses. Our saddle is known as a half breed. It has the best features of an Aussie Stock Saddle and an American Western Saddle. The swell, pommel and knee pads are all features of an Aussie Stock Saddle. This saddle is made by Martin Saddlery, Martin being one of the elite names in the saddle industry. Martin develops and produces the highest quality of products on the market today, which is why Clinton endorses and believes in their products.

Our Aussie Saddle is handmade, from its tree all the way to the finished product, in Greenville, TX.

- Axis Tree
 - Tree is made from South Dakota Pine with a fiberglass cover
 - This helps preserve and protect the tree over the life of the saddle
 - Fiberglass adds strength to the tree and minimizes the bulk
 - Tree has a Quarter Horse bar- 23" in length and 100 degrees to the bar
 - Gullet- 6 ½"
 - Cantle- 3 ¾" high
 - Pommel- 14" wide
 - Horn height is 2 ¼", the same as a standard roping horn
 - Bar tips of the tree are flared out
 - This accommodates the movement of the horses shoulders and loin
 - Bars are beveled from the center
 - Helps prevent dry spots and gives the tree a balanced fit for the horse and the rider
- Seat
 - Brown bomber leather, medium oil leather
 - 3/8" padded seat, sizes range from 13"-17"
 - Our saddle tends to run about one size larger than a traditional western saddle
 - For example, if you currently ride in a size 16" saddle, you would ride in a size 15" in our saddle
 - To measure your current saddle:
 - Measure the seat from the inside of the swell to the front of the seat back or cantle
- Color
 - Walnut
 - Available in smooth or roughout leather
- Sheepskin Wool
 - The sheepskin wool on the bottom of the saddle helps with shock absorbency
- Stirrups
 - Depth- 4 ½"
 - Width- 5"(inside), 6" (outside)
 - Free swinging
 - Close-contact Hamley Twist
 - This means that the stirrups are pre-turned for the rider
 - Provides the rider pressure relief on the knees and lower back
 - Saddle comes ready to ride out of the box
- Custom Design
 - 6 roo conchos
 - 6 sets of strings
 - These can be used to tie up saddle bags if desired
 - Barbwire runner design
- Weight
 - 27-30 lbs.
 - Rounded skirt helps keep the weight down
- Back girth
 - Our saddle comes equipped with this feature
- Warranties
 - 10-year warranty on the tree
 - 1-year warranty on the leather
